### THE LAST WILD WEST STAMPEDE IN CALGARY DRAWS BIG CROWD FROM HERE

On Monday Labor Day the editor of this journal joined the stampede to Calgary. No doubt many of the readers of the News would not be bored but somewhat pleased, read a short account of the stampede.

The morning of the first day broke somewhat cloudy but turned out cool. The monster parade that marks the old regime and the new in the west was announced to start at 9:30 a. m. but it was 10:20 before it swung into motion on eighth avenue. And such a parade it was. To the real old timer it must have brought feelings that bordered on tears. When I stood at the corner of first street west and 8th avenue I overheard many a grey haired citizen who had been an early settler in the west speaking in husky tones. The handsome Citizen band led and the wonderful Indians almost a thousand strong followed on their horses etc. They were an awe inspiring spectacle.

They were bedecked in their war paint. One grisly warrior was practically naked. Be it the last word in respect. Following were the old ox teams, the wild horses in perfect control, the wild time stage coaches and the ropes. It all went to make one long grand parade. We forgot to mention that a few of Calgary's labor unions were in the parade also. It is estimated that 100,000 people saw this part of the performance and that the amount on the grounds at the afternoon performance numbered almost 40,000 people.

The excitement of roping the horses etc. was, of course, very good and to the lover of the sport was an interesting event but almost

too much of the same thing was served to the people and it pallied.

On Wednesday a new world's record for roping and tying a steer was established, the new mark being less than 24 seconds.

Good crowds have attended all week and to-day (Thursday) H. R. H. The Duke of Connaught is to be in Calgary and the day will be another big one.

#### L.T.L. FAIR A SUCCESS

#### FINE AGRICULTURAL EXHIBIT GOOD PROGRAM RENDERED

The entertainment and fair under the auspices of the Loyal Temperance Legion, held last Saturday was a complete success. The program was carried out as nearly as possible to that published in the News last week, and pleased the visitors immensely.

The agricultural exhibit was large and some fine specimens of grains, vegetables, fruits and flowers were entered. Charlie England and C. H. Wagner judged the exhibits, and named the following as the winners of first:

Mr. Parkari: Oats.

J. Foughty: Sweet corn, clover beans, and lettuce.

George Conley: Potatoes.

A. S. Lockrem: Wheat.

John Boyd: Flax.

Wm. Ergler: Millet, sugar beets, pumpkins, rhubarb, parsnips, onions, radishes, beets, carrots.

Mrs. Kimball: Rutabaga.

Thos. Swaby: Citron, squash.

Lawrence Wanig: Flowers.

Mrs. C. R. Foughty: White turnips.

Glen Hildahl: Sunflower.

Philip Benson: Cucumber.

NOTES OF THE FAIR

Many were the compliments paid the exhibits. Monstrous

turnips, sugar beets, well developed sweet corn, No. 1 wheat, splendid flax, etc., etc., speak eloquently of the fertility of Sunny Alberta.

The crowd that visited the fair was one that taxed the capacity of the hall.

Supper time found more present than could be fed.

Hats off to Mrs. J. Boyd, the head of the affair. She is deserving of unlimited praise.

#### "There's a Reason."

If the present crop season has shown anything it shows that the good farming pays. A thrasher was talking to us the other day and told us about three different parties he had threshed for. One was a real farmer he spent real time and energy working his land. His wheat went thirty bushels to the acre. The other two adjoining him on different sides of the hill practiced the same soil to oil method, they only threshed about five bushels to the acre. Let that sink in. Mr. Imitation Farmer who only scratches the land sows the seed and expects by some miracle to see wonderful crops.

The Humphrey Brothers proprietors of the Alberta Pacific Farm are delighted with their wheat crop this year. They had 558 acres of wheat. If all grades No. 1 and goes 61 pounds to the bushel. Next

#### NEW YORK FINANCIER PLEASED BY HOLDINGS

W. W. Evans a member of the New York City Board of Trade, and a prominent figure in Eastern financial circles, was in Carlstadt last week upon business connected with his 1200 acre farm west of town. While his crop this year is not a heavy one he expressed himself as well pleased and expects to break even land than ever next year. Mr. Evans is also a holder of town lots in Carlstadt.

#### POOR DUCKS HAVING A MISERABLE TIME

The "Quack, Quack" of mallards and the whirr of their wings as they feed in the sloughs and low places has been mingled since last Friday with another sound the "Bang Bang" of the hunter's trusty pump gun. The sports is at its height and is daily attracting the gunners of the community, enticing them from work, or maybe, from a sedentary course. Nearly every tuft of grass conceals some tak-tied enthusiast awaiting a flight, and duck, posted, stowed, fried or otherwise, is tickling the palate of those who live to eat.

When your threshing is done, bring us a sample of your grain and get our prices. Our facilities for handling will be better than ever this fall.—England and England.

## JOB PRINTING OF ALL KINDS

## Comment

We do not claim the News is the  
brightest paper between Medicine  
Hat and Calgary, we admit that it  
is.

Mr. W. W. Evans the well known  
New York financier who has a big  
1200 acre farm near, Carlstadt was  
a visitor to the News office on Saturday.  
He enquired as to a subscriber.  
His son Carlstadt and district was  
fortunate in getting a paper of the  
caliber of the News in its midst.  
We will try and live up to the com-  
pliment.

With this issue we complete our  
first months business in Carlstadt.  
The support received from the  
business men and citizens generally  
has been a hearty one and we  
wish to thank all those who have  
so substantially helped the paper.  
We beg for a continuance of the  
support. To one who is outside  
the business the expense of running  
a paper in a town of the size of Carl-  
stadt is not apparent but every day  
has its expense to meet and a  
generous support is necessary.

More and more the hand of labor  
is becoming a powerful factor in the  
history of Canada and this world at  
large. Holidays like Victoria day,  
Dominion day, Thanksgiving day  
etc are only half observed compared  
to the sanctity that business  
men seem to attach to Labor Day.  
Take it in Calgary last Monday.  
With fifty thousand visitors in the  
city it would have been a jarve for  
the newspapers and business houses  
if they were allowed to keep open.  
The few of the Canadian who regards  
holidays isn't a mention to the  
way the business men would  
not incur the wrath of the labor  
organizations. A few Hebrew  
clothing houses were open but the  
city stores were entirely closed. It  
meant an actual loss to the Calgary  
and Galency paper of hundreds of dollars in advertising  
and sales in being debarred from  
publication. It was labor taking  
its toll and it was the price the  
paper and business men had to pay for  
the good will of the labor Unions.

J. Gordon Main Manager of the  
Swanby store was a most interested  
visitor to the stampede. He has  
seen 27 years of life on the prairie  
and was an early member of the  
mounted police. Speaking to the  
News he said "It was the sight of  
a lifetime." The old men of the  
mounted police followed by the new  
men all in respondent uniforms,  
especially he said was a grand sight.

## MORE GERMAN PERIL

SIR ARTHUR LAWLEY SEES A REAL DANGER

Believes that the Best Possible Factor in the World's Peace is the British Navy.—Sir Alfred Laurier, Sirs, has Arbitration its Better than Successful War.

Ottawa.—At a luncheon given to the Canadian and legal members of the Canadian Law Society, the Hon. Sir Arthur Lawley, Minister of State, and several members of the Canadian cabinet, and the members of the Canadian government, among them Sir Wilfrid Laurier, Hon. F. D. Mowat, Hon. J. D. Ross, Hon. J. D. Reid, Hon. W. J. Ross, Hon. Rodopius Lemire, and Hon. W. S. Field, were present.

In proposing the toast to the guests, Sir Alfred Laurier in pointing out the United States had been settled for the past hundred years, without regard to the fact that the United States was better than the most successful war. Touching on the race for armaments, he said:

Thank God, Canada shall never go into it to settle her differences by the sword. We have the best system of armaments and war; we are thinking of canals and railways, and perhaps of ships.

As to the German part Sir Wilfrid believed that it was only good that the world be colonized. He believed there was enough for the world to go around, and that Canada should not go into a national war. He mentioned the present Panama canal dispute, and said Canadian diplomacy would be able to settle it to the satisfaction of all.

Sir Arthur Lawley, a formerly garrulous General of State, said he had been received at the Canadian legation to the Canadian premier at the Royal Colonel Institute in London, where he had been received with a hearty welcome. He was working in welding together a nation in Canada. He stirred the heart of every Canadian, and made him feel, tried, un-motivational and insular he might be. "Our welcome to Mr. Borden, and his courtesy, and his courtesy, but it was the hand-grip of citizens of a common empire."

To the question of the political unknown, Sir Arthur said that at the present time, the union of the British Empire was the only way to be promoted for the purposes of defense.

He proceeded to justify the war, and said that the world was at war. Europe was just now a vast armed camp. Germany, the world's greatest military power, was arming herself prodigiously with no conceivable reason. The world was at war. England might find herself embroiled upon a colonial front, and he would insist that the world was at war by pointing out the inevitable effect on Canada of a great continental war.

He said that the world was at present time to wrangle about "personal rights" and the like. But the most potent factor that the world peace today is the British naval power.

**OUTH AFRICA. TO HAVE FAIR ARMED LINERS**

Union Will Follow Canada's Lead in Augmenting the Empire's Fleet

Cape Town.—South Africa has taken advantage of the mail opportunity afforded by the mail contract which has just been made with the D. P. & V. V. Great is London, to make new and important arrangements with the Canadian government to impel Canada to disband its naval force.

There is every indication that the union has decided to follow the lead of Canada and to provide the fleet of ships required to maintain the invincible into naval auxiliaries capable of holding the east-bound trade route to India.

This is suggested by the announcement that the new contract provides for the augmentation of the existing union castle fleet, during the currency of the contract, by bigger and more powerful ships, and at a lower tract price. The arrangement is likely to be received very favorably in South Africa, which is fully resolved by British and English alike that the present contribution of the British government will be of short duration, and will not exceed one year.

It is understood that the imperial authorities are fully satisfied with the arrangement.

**NO. 1. FROM CANADIAN HEADQUARTERS.**—The proposal to hold the next annual conference of the Institute of Journalists at Montreal was discussed at a recent meeting, a resolution being passed that the conference be held in Montreal, and that the meeting be postponed by a substantial majority.

Mr. Mowat, president of the Canadian and editor of the *London Chronicle*, considered the proposal neither practical nor expeditious on the ground of expense of time and money.

The members of the Institute were not missionaries, but journalists, and the Canadian and English alike were generally feeling.

Frank Zanzani supported the resolution, pointing out that he saw no reason why they should object to Canada helping the Empire.

The note submitted, says Great Britain, to the Canadian government, both the bill and the message President sent to Congress regarding the arbitration of the dispute over coastwise shipping in the canal. If after due consideration, it is found reached in the matter, Great Britain declares that it will be necessary to appeal to arbitration.

The following is clipped from the Amherstburg, Ontario, Echo:

On Saturday evening the neighbors and friends of Mr. and Mrs. Clydale surprised them by meeting at the parsonage and after an address had been read by Mr. St. John, voted to have a love and respect meeting which they are held. There was presented by Forrest Bellars on behalf of the company to Mr. Clydale an expensive gentleman's travelling bag and to Mrs. Clydale a diamond gold ring. Mr. Clydale has received himself a young man of sterling qualities and has always stood for the highest type of Christian living. While Mrs. Clydale by the sweetening of her disposition was a very friendly in Morden, and much regret is felt that she and her son were taken away to a larger field. They carry with them the best wishes of the people for much happiness and success in their new home and work. They left on Tuesday and will spend a week at his home in Morden before leaving for the West. The young ladies of the love and respect class also presented Mrs. Clydale with a pearl handkerchief and as a token of their good will toward the class, a willing worker in the Sunday School.

## A Contest

To the first person who solves correctly the following problem, we will give absolutely free of any expense, whatever a three years subscription to the Carlstadt News.

This is the problem:

If a hen and a half, lays an egg and a half in a day and a half, how many eggs will ten hens lay in ten days?

Now this is no "gag" or fake, but a genuine, honest problem that almost anyone should be able to work. The only rules governing the contest are:

First: Anyone may try for the prize, whether a subscriber or not. Second: Answers should be mailed to Carlstadt News, Carlstadt, Alta., not later than September 14th.

There is a chance that no one should win. Remember, the first person who sends in a correct answer will get a three years subscription absolutely free, and everyone else who sends in the correct answer will receive the paper free for a month if they are not already subscribers.

Address all letters to Carlstadt News, Carlstadt, Alta. Think it out, it's really simple.

## We Moved!

Last Friday our late landlady Mr. Hanson called and informed us that on the following day he would require his premises where we were engaged in buying, butchering for a small butcher shop as he intended to start a meat market. Such enterprises appealed to us and we had a passing day and with the assistance of draymen, Pallins on the Shirley Co., we were soon encamped in new quarters formerly the Ball restaurant. We might say in passing that these quarters are only temporary—we have been promised permanent quarters in the building at present occupied by the Union Bank which will be remodeled to suit the requirements of a first class print shop. Take it from us that moving printing presses is no job for weaklings but the whole staff including the official cat came through well. "Come and see us in our new quarters." We wish to thank Messrs. Barnes, Laird and Thoroux for valuable muscle power supplied in our hour of need.
